EAA CHAPTER 461

CLOW INTERNATIONAL AIRPORT
118 S. CLOW INTERNATIONAL PKWY.
BOLINGBROOK, ILLINOIS 60490

CONTACTUS@EAA461.ORG
WWW.EAA461.ORG

Dear Prospective Donor,

We hope this letter finds you well. We are writing to inform you of an exciting initiative within our local Experimental Aircraft Association (EAA) group, EAA Chapter 461, based in Bolingbrook, Illinois. EAA Chapter 461 is a 501(c)(3) nonprofit organization dedicated to inspiring and educating the next generation of aviators, engineers, and aviation enthusiasts.

Our chapter is currently engaged in a hands-on youth aviation program where teens and adults are working together to build a Zenith 650 aircraft. This project is more than just an aircraft build—it's an opportunity for students to develop critical skills in engineering, mechanics, teamwork, and problem solving. Our builders are learning how to read technical drawings, use specialized tools, and understand real-world aviation concepts—all while fostering perseverance and a passion for flight.

To continue this valuable program, we need support from community partners and individuals like you. Your generous donation will help us acquire essential parts and tools necessary to complete the aircraft and expand our educational outreach. Whether through a financial contribution, in-kind donation, or sponsorship, your support will directly impact the future of young aviators and STEM enthusiasts.

We invite you to be a part of this incredible journey by making a tax-deductible donation to EAA Chapter 461. Your generosity will not only help us complete this aircraft but also inspire and motivate the next generation of aviation professionals.

To make a donation, you may contact us via phone or email, or you may visit our webpage under projects where there is a donation tab:

<https://www.eaa461.org/projects/zenith-ch650>

We also have a Facebook page, Phoenix 650 Build, which highlights build progress:

<https://www.facebook.com/profile.php?id=61575699902133>

Please feel free to contact us if you have any questions or would like more details on how you may contribute. We also invite you to visit our workspace and see firsthand the impact of your support. Our build nights are typically on Thursdays at 7pm, except for the first Thursday of each month when we hold our monthly board meeting and chapter member gathering. Our full event schedule is viewable here:

<https://www.eaa461.org/events>

Together, we can help young minds take flight!

With Kind Regards,

EAA Chapter 461 Leadership
